Summary

I possess exceptional interpersonal, analytical skills, creativity and innovativeness, problem solving skills, communication and management skills demonstrated during a history of building and maintaining positive working relationships within the organizations and institutions I have worked with and in various assignments. I collaborate effectively with senior management to align defined objectives to achieve mission-critical results through a clear chain of command. I am a success-driven individual with the ability to perform in highly pressurized and challenging environments, offering a significant contribution whether operating independently or leading an efficient and mission dedicated team. My core competencies include leadership, management, planning, UI designs using figma, user requirements collection, analysis and database designs as well as system development.

Aspiring to work with an organization that offers responsible position where I can utilize my skills and capabilities to carve a niche for myself and effectively deliver towards contributing to the organization's aspirations and also enhance my personal growth through continual upgrading of knowledge.
